

A lot has happened again since Issue 3, with an important meeting with the Kampala Diocesan Discipleship leaders and Education coordinator, attending a service at St Marks Church, Entebbe Road with Isaiah Mugambwa the Lay reader who is leading the SEAN vision in the Church and awarding certificates for completing the SEAN courses, further work on the land, then visiting the Ssesse Islands for 5 days.

**Ways to get involved ...**

Prayer is so important; please pray for Rob, Daniel and Rebecca, Ssesse Islands and Rev Edward, Kasese Church and St Marks Church, financial help to print more books (Each SEAN book is a rare, treasured and precious gift to people), those in prison, the Ndejje Resource Centre and the village.

**Ssesse Islands**

- 84 Islands in Lake Victoria
- 63 are inhabited
- 4 million people to reach
- 48 Congregations
- 15 Islands still not reached with the gospel with the threat of murder especially for white men so only local fishermen can risk visiting these 15 islands. No laws only the rule of survival
- No sanitation, no toilets
- Boiled fish heads and roots to eat
- A people hungry for God’s Word
- We have been entrusted together with Daniel in helping and supporting Rev Edward in his mission to reach these people with love and discipleship through the SEAN material
- Only God knows how we can do this with little resources but He calls us to GO and trust Him.

This figure has increased from Issue 3 as we need more books for Ssesse Islands.

Rob said “There was a police officer that attended our service and the group study. Later I met up with him on his rounds still carrying his Life to the Full book on duty, and he said “this book I will use with my family as we don’t have anything like books or paper and this will be the centre of my family gatherings”. The following morning while we were loading the fishing boat to go to another island he approached me and stood tall, face to face with me and he asked this of me “Do you feel Africa”. My reply was going to be funny as I was having to hold up my very loose trousers and stop my tummy from rumbling in front of him, due to hunger, then I realised he was being serious and he out stared me and as I held his face for a few seconds my reply was this, Sir I have been coming to Uganda for the last 12 years so does that give you the answers you are looking for? He thrust out his very large hand to take mine and said “thank you for loving us” turned and walked away. He was testing me out to see if I would continue in the call or be just like the others and come and go but never return”. The Police officer is in the second photo down on the right with the beige uniform.

Returning from the Ssesse Islands back to the land the Medical Centre has taken shape
